

Lost Valley Prairie Scientific and Natural Area October Adopt-A-Knob Work Day

Where: Denmark TWP in South Washington County
When: Saturday, October 22 from 10 AM to 2 PM
Leader: Steve Poole, Lost Valley SNA Volunteer

October will probably be the last seed collecting opportunity for this year. November can't be counted on. Asters and goldenrod will be prime targets. There also should be some gentian seed as well. Additionally there should be grasses left as well. Drop seed, Indian grass, big blue stem, little blue stem will be ripe and only the weather will determine how much is actually some left to collect.

We will also start cutting brush, stacking it and creating brush piles for the winter burn season.

Wear sturdy boots, dress for the weather. Leather gloves will be helpful. Bring a lunch and water. We will be eating out on the knob.

This field trip will be restricted to 20 MNNPS members.
